PROFESSIONAL SUMMARY

Motivated and detail-oriented Junior Full-Stack Developer with practical experience in building secure web applications using Node.js, Express.js, MongoDB, PostgreSQL, and JavaScript. Experienced in designing RESTful APIs, implementing authentication systems, database management, and backend architecture for inventory management and library management applications. Passionate about software engineering, fintech solutions, and continuous learning. Seeking internship opportunities to contribute technical skills while gaining hands-on industry experience.

TECHNICAL SKILLS

Backend Development

- Node.js
- Express.js
- JavaScript (ES6+)
- REST API Development
- JWT Authentication
- API Integration

Databases

- MongoDB
- PostgreSQL
- Database Design
- Mongoose ODM

Cloud & Tools

- AWS (Basic Knowledge)

- Git
- GitHub
- Postman
- VS Code

Frontend

- HTML5
- CSS3
- JavaScript
- React.js (Learning)
- Tailwind CSS (Learning)

Software Engineering

- MVC Architecture
 - Authentication & Authorization
 - Error Handling
 - CRUD Operations
 - Security Best Practices
-

PROJECTS

Inventory Management System

Technologies: Node.js, Express.js, JavaScript, MongoDB

- Designed and developed a backend inventory management solution.
- Implemented user authentication and role-based authorization.
- Built secure CRUD operations for inventory administration.
- Applied API security and validation best practices.
- Structured the application using scalable backend architecture.

Library Management System

Technologies: Node.js, Express.js, JavaScript, MongoDB

- Developed backend APIs for library administration and book management.
- Designed database relationships for books, students, and attendants.
- Implemented authentication and authorization features.
- Built modules for issuing, returning, and tracking books.
- Created maintainable and scalable RESTful API endpoints.

Banking & FinTech Backend Projects (Personal Projects)

Technologies: Node.js, Express.js, MongoDB, PostgreSQL

- Designed backend architectures for digital banking systems.
 - Implemented account management workflows.
 - Built secure authentication and transaction APIs.
 - Studied integration patterns for banking and payment systems.
 - Applied security practices for financial applications.
-

EDUCATION

Adekunle Ajasin University, Akungba-Akoko, Ondo State

Bachelor of Science (B.Sc.) – Business Administration

Expected Graduation: 2025

STRENGTHS

- Backend Development
 - Problem Solving
 - Team Collaboration
 - API Design
 - Database Management
 - Fast Learner
 - Attention to Detail
 - Software Documentation
-

ADDITIONAL INFORMATION

- Open to Internship Opportunities
 - Available for Remote and On-site Roles
 - Interested in Backend Engineering, FinTech, and Full-Stack Development
 - Eligible to work with distributed development teams
